Inspiration Maps for iPad

Our favourite visual thinking and learning software comes to the iPad!

Excellent for ALL Students, superb for visual learners, use creatively with students with ASD, LD, comprehension, planning, organizing and initiating difficulties. Use to write a story, analysis, creating and studying...& much more.

Do you love that concept map software on every computer in the school? Wish students could be more mobile when brainstorming, planning, outlining and studying? Inspiration Software has come to the iPad in the form of Inspiration Maps App. There is a free Lite version and full version priced at $14.99. Easy to learn, easy to use and easy to apply!

**Use this App on the go just like you would on the computer.**
•Organize your thoughts
•Teachers can access vast number of web mapping templates to get your students started
•Students use the graphic organizers to study for tests and exams
•Brainstorm new ideas
•Outline proposals, projects and research
•Plan your Inquiry Based Learning Project - Teachers and Studen

Built in features of this App:
•Saves automatically
•Import a picture you take or grab an image from the web
•Add hyperlinks
•on the iPad3 use Dictation to voice in your text
•Attach notes
•Share with Pages and other mobile Apps
•Change webmap to outline view
Lite version allows you to work with up to 5 diagrams.

Share in many different ways!

Inspiration Maps App Lite FREE
